- Sticky gel mounting strips
- Quickstart guide

The transceiver is a sleek and compact Bluetooth audio transmitter that seamlessly streams Hi-Fi digital audio wirelessly from your TV or wired music system to your favorite pair of Bluetooth headphones or speakers.

It can also act as a Hi-Fi Bluetooth music receiver that streams high quality audio wirelessly from any Bluetooth enabled smartphone, computer or tablet to any music system or powered speakers. Incorporating the high quality aptX Low Latency audio streaming codec and digital Toslink connection, the BT-01 transceiver provides Hi-Fi digital audio streaming to up to two Bluetooth headphones or speakers simultaneously.

Headphones		Transceiver
